# Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Statements

To the Shareholders of Al Ramz Corporation Investment and Development P.J.S.C.

#### Introduction

We have reviewed the accompanying 30 September 2019 condensed consolidated interim financial statements of Al Ramz Corporation Investment and Development P.J.S.C. ("the Company") and its subsidiaries (together referred to as "the Group"), which comprises:

- the condensed consolidated interim statement of financial position as at 30 September 2019;
- the condensed consolidated interim statement of comprehensive income for the three-month and the nine-month periods ended 30 September 2019;
- the condensed consolidated interim statement of changes in equity for the ninemonth period ended 30 September 2019;
- the condensed consolidated interim statement of cash flows for the nine-month period ended 30 September 2019; and
- notes to the condensed consolidated interim financial statements.

Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

#### Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Statements 30 September 2019

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 September 2019 condensed consolidated interim financial statements is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

Notes to the condensed consolidated interim financial statements

## 1 Reporting entity

Founded in 1998, Al Ramz Corporation Investment and Development P.J.S.C ("the Company") is a UAE domiciled public joint stock company listed on Dubai Financial Market and regulated by UAE Securities and Commodities Authority as well as the Dubai Financial Services Authority. Al Ramz is a premier financial institution providing a broad spectrum of services including asset management, corporate finance, brokerage, lending, market making, liquidity providing and research.

The main activities of the Company and its subsidiaries (together referred to as "the Group") are to invest and manage commercial, industrial and agricultural enterprises and to provide brokerage services including brokerage in selling and buying shares, margin trading, market making and liquidity providing and to perform all related transactions and activities.

The Company's registered office is P.O. Box 32000, Abu Dhabi, United Arab Emirates.

These condensed consolidated interim financial statements were approved and authorised for issue by the Group's Board of Directors on \_\_\_\_ 3 0 007 2019 \_\_.

## 2 Basis of accounting

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and should be read in conjunction with the Group's last annual consolidated financial statements as at and for the year ended 31 December 2018.

They do not include all of the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's consolidated financial position and performance since the last annual consolidated financial statements.

These condensed consolidated interim financial statements have been presented in United Arab Emirates Dirhams ("AED"), which is the functional currency of the Group and all values are rounded to the nearest thousands dirham, except when otherwise indicated.

#### 2.1 New currently effective requirements

The accounting policies used in the preparation of the condensed consolidated interim financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2018, except for the adoption of the following new IFRSs and amendments as of 1 January 2019:

- IFRS 16 Leases
- Prepayment Features with Negative Compensation (Amendments to IFRS 9)
- Plan Amendments, Curtailment or Settlement (Amendments to IAS 19)
- Annual Improvements to IFRSs 2015–2017 Cycle (Amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23)

Notes to the condensed consolidated interim financial statements

## 2 Basis of accounting (continued)

#### 2.1 New currently effective requirements (continued)

The IASB issued a new standard for accounting for leases in January 2016. a) The new standard does not significantly change the accounting for leases for lessors. However, it does require lessees to recognise most leases on their balance sheets as lease liabilities, with the corresponding right-of-use assets. b) Lessees must apply a single model for all recognised leases, but will have the option not to recognise 'shortterm' leases and leases of 'low-value' assets. c) Generally, the profit or loss recognition pattern for recognised leases will be similar to today's finance lease accounting, with interest and depreciation expense recognised separately in the statement of profit or loss. Early application is permitted provided the new revenue standard, IFRS 15, is applied on the same date. The Group has assessed the impact of the above standard. Based on the assessment, the above standard has no significant impact on the financial statements of the Group as at the reporting date.

The adoption of the other standards and interpretations above had no significant impact on the Group's consolidated financial position or performance.

### 2.2 Standards issued but not yet effective

- Amendments to References to Conceptual Framework in IFRS Standards
- Definition of a Business (Amendments to IFRS 3)
- Definition of Material (Amendments to IAS 1 and IAS 8)

#### 2.3 Use of judgements and estimates

In preparing these condensed consolidated interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2018.

#### 2.4 Basis of consolidation

These condensed consolidated interim financial statements incorporate the financial statements of the Company and its subsidiaries for the nine months period ended 30 September 2019.

The financial statements of the subsidiaries are prepared for the same reporting period as the Group, using consistent accounting policies. All intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions are eliminated in full.

The condensed consolidated interim financial statements include the financial statements of the Company and its subsidiaries listed below:

Notes to the condensed consolidated interim financial statements

### 16 Changes in significant accounting policies

Except as described below, the accounting policies applied in these condensed consolidated interim financial statements are the same as those in the Group's consolidated financial statements as at and for the year ended 31 December 2018.

The changes in accounting policies are also expected to be reflected in the Group's consolidated financial statements as at and for the year ending 31 December 2019.

#### IFRS 16 Leases

The Group applied IFRS 16 with a date of initial application of 1 January 2019. As a result, the Group has changed its accounting policy for lease contracts as detailed below.

The Group applied IFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1 January 2019. The details of the changes in accounting policies are disclosed below.

#### A. Definition of a lease

Previously, the Group determined at contract inception whether an arrangement is or contains a lease under IFRIC 4. Under IFRS 16, the Group assesses whether a contract is or contains a lease based on the definition of a lease.

On transition to IFRS 16, the Group elected to apply the practical expedient to grandfather the assessment of which transactions are leases. It applied IFRS 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under IAS 17 and IFRIC 4 were not reassessed for whether there is a lease. Therefore, the definition of a lease under IFRS 16 was applied only to contracts entered into or changed on or after 1 January 2019.

#### B. As a lessee

As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to the Group. Under IFRS 16, the Group recognises right-of-use assets and lease liabilities for most leases – i.e. these leases are on-balance sheet.

The Group decided to apply recognition exemptions to short-term leases of machinery and leases of IT equipment. For leases of other assets, which were classified as operating under IAS 17, the Group recognised right-of-use assets and lease liabilities.

### i. Leases classified as operating leases under IAS 17

At transition, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Group's incremental borrowing rate as at 1 January 2019. Right-of-use assets are measured at either:

- their carrying amount as if IFRS 16 had been applied since the commencement date, discounted using the lessee's incremental borrowing rate at the date of initial application
- the Group applied this approach to its largest property leases; or
- an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments the Group applied this approach to all other leases.

## 16 Changes in significant accounting policies (continued)

IFRS 16 Leases (continued)

#### B. As a lessee (continued)

#### i. Leases classified as operating leases under IAS 17 (continued)

The Group used the following practical expedients when applying IFRS 16 to leases previously classified as operating leases under IAS 17.

- Applied a single discount rate to a portfolio of leases with similar characteristics.
- Adjusted the right-of-use assets by the amount of IAS 37 onerous contract provision immediately before the date of initial application, as an alternative to an impairment review.
- Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term.
- Excluded initial direct costs from measuring the right-of-use asset at the date of initial application.
- Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

#### ii. Leases previously classified as finance leases

For leases that were classified as finance leases under IAS 17, the carrying amount of the right-of-use asset and the lease liability at 1 January 2019 are determined at the carrying amount of the lease asset and lease liability under IAS 17 immediately before that date.

#### C. As a lessor

The Group is not required to make any adjustments on transition to IFRS 16 for leases in which it acts as a lessor, except for a sub-lease. The Group accounted for its leases in accordance with IFRS 16 from the date of initial application.

Under IFRS 16, the Group is required to assess the classification of a sub-lease with reference to the right-of-use asset, not the underlying asset. On transition, the Group reassessed the classification of a sub-lease contract previously classified as an operating lease under IAS 17. The Group concluded that the sub-lease is a finance lease under IFRS 16.

#### **D.** Impacts on financial statements

Based on management assessment, the Group has determined the application of IFRS 16 at 1 January 2019 does not result in a significant impact on the condensed consolidated interim financial statements.
